## REPORT OF THE SCHOOL COMMITTEE.

---

In compliance with the requirements of our Statutes, your Committee would submit his annual report of your schools. All the teachers in town have been very successful, and an ornament to the profession.

### DISTRICT NO. 1.

Summer term. This was the teachers second school. She tried hard and for a young teacher did well. This was a quiet and easy school to govern. There was nothing lacking on the part of the teacher in instructing her pupils, and they made fine progress.

Winter term. Confident, earnest and thorough teacher. Good order the first and second visit. Progress good in Arithmetic, Grammar, Reading, Writing and Spelling. This school has excelled any other in town in one respect. The larger scholars have seemed to feel that they were men and women, and their conduct toward their teacher and to one another has been worthy of that feeling.

### DISTRICT NO. 2.

Fall term. This school had but one term. Teacher an excellent scholar. She tried hard and succeeded in instructing her pupils.—At first and second visit most of the scholars seemed well disposed and earnestly engaged in their studies, and good progress was made.

### DISTRICT NO. 3.

Same teacher both terms. Teacher quiet, patient, of ample experience and good understanding. Her classes were admirably arranged, but far too small to give scope to a teacher of her abilities. Clear in all her illustrations. Progress good in all the branches during both terms. Still in session.

### DISTRICT NO. 4.

Same teacher both terms. Excellent scholar—a thorough and

experienced teacher. The respectable behavior of her scholars is a high recommendation for the teacher and her merits are exhibited in the union and harmony existing throughout every exercise of the school. Thorough and rapid advancement was made during both terms.

#### DISTRICT NO. 5.

Summer term. This teacher, governed by her knowledge of human nature, and a peculiar way she has of securing the good will of her pupils—clear in her understanding—quick in apprehension—ready in illustration, and has a rare faculty of making others understand what she knows. The review at the close of this term was thorough. Superior progress was made in all the different branches of education.

Winter term very full. Mr. Sanborn is a teacher of experience and an excellent scholar, with fine interesting manners, and gained the good will of his pupils and needed but few words to keep good order, and his scholars made superior advancement.

#### DISTRICT NO. 6.

Same teacher both terms. She governed her school in an easy and pleasant way, gaining the good will of her pupils. This school was very small and too small to hardly be called a school. Although the teacher spent her time in a very creditable manner to herself and pupils.

#### DISTRICT NO. 7.

Summer term. This is quite a hard school to govern. The teacher seemed willing and faithful, and tried to do the very best she could, if she erred it was from no want of interest or any knowing neglect. The pupils made fair advancement.

Winter term. Miss Tebbetts, by her energy and interest brought chaos into harmony. Has an easy way of gaining the good will of scholars, and therefore she had no difficulty in accomplishing that most desired end, a good school.

#### DISTRICT NO. 8.

This district had but one term. School small. Energetic teacher who succeeded admirably in the thorough drill of all her pupils.—First and second visit found the school quiet and good order.

#### DISTRICT NO. 9.

Summer term. First visit found the school in excellent order. Pupils earnestly engaged. Teacher quiet and clear in her illustrations. Progress good during the term.

Winter term. Teacher thorough and experienced. Her government by force and will is limited. But her social power, her control of the hearts of her scholars wonderful. The teacher loves children. Knows what she assumes to know; has an accurate preception, and a singular faculty of illustration which pours a flood of light into the mind of her pupils. School a decided success.

#### DISTRICT NO. 10.

This district had but one term. School small and very backward. Teacher had not great experience but is instinctively an in-

structor. She never allowed her pupils to leave a subject until it was finished. She tried hard and did well. Progress good.

### DISTRICT NO. 11.

This district had but one term. The school has been very backward, but has had good teachers for two years past and has made rapid advancement. It now has a thorough and well qualified teacher. School still in session.

### DISTRICT NO. 12.

This district has but one term. Teacher of easy manners—a thorough scholar. School far to small. First visit found the school in good order. Teacher and pupils well engaged. Still in session.

I hereby submit the above report with the annexed tabular statement for your consideration.

W. A. BUCKLIN,

School Committee of Upper Gilmanton.
